

Rotationally-molded in 60 & 90 Gallon Models

# Versa-Kart™ for Fully & Semi-Automated Operations

## All the Extra Strength Needed in a Pinch

The classic Versa-Kart™ by Ameri-Kart is the perfect container for mobile waste management. The cart's sleek, narrow design allows it to fit through tight doorways and crowded aisles in factories, office buildings, warehouses, airports, or anywhere you have refuse to be collected. Fully-loaded, Versa-Kart construction and balanced design make easy work of handling heavy loads.

Rotational molding produces stress-free, seamless, uniform thickness walls. Inhibitors resist UV and petro-chemical damage. Snug fitting lid keeps out rain, snow, critters, and seals in odors.

### BENEFITS:

- **Multi-collection System Compatability:**  
Design allows use with both fully and semi-automated collection systems

- **Over-size foot print for stability:**  
Full-contact base increases stability in high wind environments

Ergonomic handles and lip design:

60 gal.

90 gal.

# Fully-Automated Versa-Kart™ Specifications

ANSI compliance: Versa-Kart™ meets all American National Standards Institute requirements for safety and lifter system compatibility. (ANSI Z245.30 and Z245.60)

The Versa-Kart's smooth strong container body is impervious to oil and most chemicals. Easy to clean, guaranteed color retention for the container's life time. Rotationally molded of linear medium density, UV-stabilized polyethylene for exceptional durability. Walls are uniform thickness and corners are weld-free. Seamless construction provides weather-proof protection for contents. Combining the Versa-Kart with an Ameri-Kart Poly-Lift™ allows one person to quickly and safely unload filled containers into a companion baler or compactor up to 57" high.

**Handle:**  
Molded into lid

**Lid:**  
Attached lid swings out of way for easy dumping; convex shape allows over-loading and sheds rain; tight fit keeps odors in and pests out

**Container Body:**  
Rotationally molded for rugged durability; impervious to oil and most chemicals; will not fade, chip, or crack

**Serial Numbers & Logos:**  
Company or department ID permanently hot-stamped into body

**Latch Bar:**  
Replaceable 1" steel bar for use with semi-automatic lift systems

**Colors:**  
Standard: green or black in any combination  
Custom colors available

**Rolled Edges:**  
Prevent lacerations and increases container side strength

**Wheels:**  
Snap-on style molded of recycled, post consumer plastic. 12" on 60 & 90 gallon

**Axle:**  
60 & 90 Gallon 3/4" OD zinc plated solid steel
